

# EXPERIMENT DESIGN

→ 5 Independent randomly allocated groups.

→ Each group (except control) gets allocated 1 song for all participants belonging to that group.

## Pipeline of Experiment for every group (Except control)

$$\text{Total Time} = (1 \text{ min} \times 8) + (15 \text{ s} \times 7) + 15 \text{ s} = 10 \text{ min} \text{ (Buffer)}$$

# Attributes measured after every round
